SUMMARY

Passionate AI & Data Science student at Mahindra University with experience in predictive modeling, SQL, and interactive dashboards using Tableau & Power BI. Skilled in transforming raw data into actionable insights through machine learning and analytics.

EDUCATION

Mahindra University , Hyderabad, India	2023 - 2027
Course Work : Reinforcement Learning, Machine Learning, Deep Learning, Natural Language Processing	
B. Tech in Artificial Intelligence; CGPA: 8.4 (till 5 th semester)	
Sri Chaitanya Junior College , Rajahmundry, India	2021 - 2023
Intermediate: MPC; Percentage: 87%	

TECHNICAL SKILLS

- **Languages** : SQL, Python, C, Java, C++, HTML, CSS, JavaScript
- **Databases**: MS SQL Server, MySQL, MongoDB, JDBC
- **Platforms & Tools**: Tableau, Power BI, PyTorch, TensorFlow, OpenAI Gymnasium, Scikit-learn, Git
- **Domains**: Machine Learning, Deep Learning, NLP, Audio/Speech Processing, Computer Vision

EXPERIENCE

Reliance Industries Limited	June 2025 – July 2025
<i>Data Analyst Intern – MS SQL Server, Tableau</i>	
• Developed HR Analytics & PR Tracker dashboards in Tableau using SQL and KPI-driven insights. • Performed data cleaning, preprocessing, and advanced Tableau visualizations for interactive dashboards. • Conducted HR data analysis and delivered actionable insights for decision-making and training evaluation.	

PROJECTS

Hybrid Predictive Maintenance using Enhanced CMAPSS NASA Dataset	Aug 2024 – Dec 2024
<i>Python, XGBoost, Random Forest, Time-Series</i>	
• Developed predictive maintenance models for Remaining Useful Life (RUL) estimation using Linear Regression, Random Forest, and XGBoost. • Performed data preprocessing, feature engineering, hyperparameter tuning, and model evaluation using RMSE & MAE.	
Sales Insights – Retail Business Dashboard	Aug 2025 – Dec 2025
<i>MySQL, PowerBI, GitHub</i>	
• Imported, cleaned, and transformed sales data from GitHub using MySQL to ensure high-quality, reliable reporting. • Built an interactive Power BI dashboard with automated Power Query ETL, delivering sales KPIs, customer segmentation, and regional performance trends to drive data-informed business decisions and growth.	
Dog Voice Translation Software	Aug 2025 – Dec 2025
<i>Python, SVM, Random Forest, Deep Learning, MFCC</i>	
• Developed a dog vocalization classification system using MFCC extraction, spectrogram analysis, and noise reduction. • Implemented SVM, Random Forest, and deep learning models with evaluation using accuracy, precision, recall, and F1score.	

ACHIEVEMENTS

- **Mahindra Aeon Hackathon Winner 2026** – Designed an edge-efficient AI model to detect AIS-dark (“ghost”) ships using multi-modal satellite data. Achieved higher accuracy and F1-score than baseline models while maintaining real-time performance on low-power hardware.
- **Merit Certificate & Scholarship** – 2x (2023–2024, 2025–2026).
- **Mahindra Aeon Hackathon Finalist 2025** – Voice-based Diabetes Screening Tool (Python)

LEADERSHIP & EXTRACURRICULARS

- **IEEE ICETCI 5th International Conference – Operations Lead**
- **Sakhi - The MU Women's Welfare and Empowerment Club School of Engineering Representative.**
- **Youth Empowerment Program Workshop** – 3x(2024-2025, 2025-2026, 2026-2027)
- Active in marathons, recreational running, and Sudoku solving
